

Pedro Nobre

Systems & UI Engineer

Self-taught software engineer with over a decade of experience across the entire stack, specialized in low-level code, API architecture, and front-end engineering. Driven by a craftsmanship mindset, open-source principles, and high-performance design.

Work Experience

Software Engineer · **OITalent** November 2024 — June 2026

- Architected, developed, and managed educational software engineering content and automated testing suites deployed across an international network of 27+ campuses in 14 countries.
- Revamped, audited, and fine-tuned the global Rust curriculum, engineering robust automated validation tools and reference implementations.
- Collaborated directly with a decentralized network of campus teams to optimize grading pipeline efficiency, maintain curriculum quality, and ensure content reliability.

Formal Education

Undergraduate Coursework in Computer

Science · **Universidade do Minho** 2024

- Leveraged advanced foundational coursework in functional programming paradigms and object-oriented systems to complement long-term practical experience.

Student · **42 Porto** 2022

- Part of the inaugural batch of accepted students at 42 Porto's peer-to-peer program.
- Sharpened deep technical competencies in manual memory management, data structures, and algorithmic complexity via strict Unix-compliant C/C++ development.
- Mentored peers and established a strong collaborative footprint within the region's top-tier tech talent network.

Pisciner · **42 Porto** 2022

- Completed the rigorous, 4-week selection pool testing fundamental software engineering aptitude, collaborative problem-solving under extreme constraints, and shell automation, resulting in direct admission.

Skills

Programming languages

Rust, Zig, HTML, CSS, JavaScript/TypeScript, Golang, C, Java

Technologies & Environments

node.js, Bun, Deno.js, tokio, Solid.js, React, Next.js, Tailwind CSS, Panda CSS, styled-components, MongoDB, SQL, LLVM, *nix

Tooling & Platforms

Git, GitHub, Netlify, Vercel, Heroku, Firebase, Docker

Languages

Portuguese

Native Proficiency

English

Full Professional Proficiency

Spanish

Professional Working Proficiency

French

Limited Working Proficiency

Interests

Gaming, powerlifting & nutrition, open-source, Linux ricing & hardening
